Climate Control Application & Product Training

How to effectively select and apply Climate Control Products

August 11 - 13, 2008

Who should attend:

Owners, Sales Management, Sales Reps, product support staff

Don't miss the opportunity to:

- See new products!
- Learn how to be a solutions provider
- Select the right machine for the right job.
- Get the most through accessory opportunities
- Maximize the use of electronic cost estimators
- Expand the seasonality of your Climate Control Products
- Understand the seasonal Climate Control Marketing Plan
- Meet other dealers and their support staff and share success stories
